ABOUT ME

After 8 years of working for Alpro, I decided to follow my dreams and started studying Game Sound Intergration at DAE Howest. Sound has always been a big passion of mine, as I truly believe that a great sound design is the difference between a good and a great game.

Gaming has also always been a passion of mine, both online and tabletop. I have played and dm'ed and in its various forms for 7 years now. Gaming, for me is the medium through which you can truly connect with a player, bring them grief and joy in a way no other medium can quite manage. And my biggest dream in life is to be part of something like that, a game that can truly touch people's heart.
